CINDY ROBLES-GARCIA
Laramie, WY 82070 | 801-661-8863 | croblesg@uwyo.edu

OBJECTIVES

I am seeking a role as a _____, where I can contribute my skills, knowledge, and experience to support the organization's growth and improvement. I aspire to leverage my strong work ethic, boundless energy, and positive attitude to make a meaningful impact in this role

Education

Bachelor of Science JUNE 2025
University of Wyoming

- Major: Chemistry

Vocational Education JUNE 2009
Everest College

- Pharmacy Technician International and State licensed.

Skills and Abilities

- Pharmaceutical and Dietary background experience.
- Analytical Laboratory experience: HPLC (MS, RID and ELSD), GC (MS and FID), UV-Vis, FTIR, RAMAN, ICP-MS, LC-MS, GC-MS.
- Secondary Analysis: Water determination, Loss on Drying, Sieve particle size analysis, Optical Rotation, Boiling Melting Point, Residue on Ignition, Residue on Evaporation, Density, and Specific Gravity and various other testing.
- Data analysis, interpretation, and proficiency with laboratory software and systems.
- Bilingual Spanish (Native Speak, Read, and Write).
- Fast learner, collaborator, motivated and always willing to learn new abilities.
- Quality Control: Received Raw Material, Quarantined and Released. Generated and executed vendor validation process. Following 21 CFR 111 and 211.
- Quality Assurance: Sample prep for testing, Data Integrity, final good release, Batch record review and Certificate of Analysis generation.
- GMP, SOP, ISO 9001, ISO 17025, ISO 17034, 21 CFR Part 111 and 211 knowledge and training.
- MS Office (Word, Excel, PowerPoint, etc.), Chemstation, SmartSheets, Trackwise, Macola, Mass Hunter and various other applications.

Professional Experience

Quality Associate Scientist
Millipore Sigma ***Laramie, WY*** **June 2018- Current**

- Undertake assigned projects, stability studies, drafting reports, test specifications and batch records in the QC laboratory.
- Product and Application development run analytical methods and stability assessments by HPLC, GC, GC-MS, and LC-MS.
- Evaluating manufacturing formulations, support validation, technical transfer, training, and testing.
- Write reports, document methods, tests specifications, contribute to batch records, test specifications and R&D on new products.
- Organized and developed a proficient way to receive standards and organize laboratory setting to improve workflow and increased productivity.
- Proficient in secondary analytical testing including FTIR, Karl Fischer, Loss on Drying, Optical rotation, Specific Gravity, and Residue on Ignition.

R&D Technician

Soft Gel Technologies Inc. Commerce, CA **December 2017 to March 2018**

- Sourced raw materials and found vendors that complied with ISO requirements for consumable.
- Formulated a variety of vitamin mineral dependent on the customer's needs and requirements for their soft gel demand.
- Developed lab samples of different variety of color swashes for customers that are interested in soft gel orders samples.
- Contacted customers, maintained excellent communication, and sent samples of new trial batches created.
- Received raw material and conducted provisional soft gels for customers.

Lead Quality Assurance Administrator

MeriCal LLC Orange, CA **January 2013 to November 2019**

- Lead Quality Administrator sampled and sent samples out to third party or internal laboratories to ensure product met label claim, heavy metal specification and Micro.
- Contact laboratories for testing inquiries or OOS investigations.
- Create and send finish product specifications and Certificate of Analysis. Approved New/Existing product formulas.
- Maintained good documentation and completed DCRs, and NCRs when required.
- Raw material experience on receiving, sampling, filing completing documentation, creating specifications and release.
- Completed a vendor validation process to expedite QC release process.
- Experienced in Batch Record Review, QC production and finish product specifications.
- Experience in Quality Control requirements of blending, compressing, coated tablets and encapsulation process ensuring product met hardness, dissolving, weight, and coating quality.

Quality Control Lead (QC)

VMI Nutrition (Genysis Brand Solutions) Salt Lake City, UT **November 2010-October 2012**

- Quality Control ensured every product met specifications, taste test, weights, and overall quality.
- Followed and enforced GMPs and SOPs.
- QC team lead for the second shift production packaging line.
- Lead a group of five QC employees to conduct random checks, cleaning inspections and finish product release inspections to ensure product meets requirements to satisfy employer and customer.
- Ensured production employees met proper PPE.
- Collected retention samples and maintained storage.
- Supported other leads and managements on various issues.
- Supported upper management on investigations and customer complaints as needed.
